

## **Baby Elephant Walk**

This is my husband's very favorite.... Everytime we have a guest...that wants to hear me play the piano....my husband requests this one. In fact, my friend, Doug, that records for me and creates my CDs....is a jazz bass guitarist himself... He told me that he was listening to my Jazzy CD in his car critiquing it....and when this piece continued to jamm on.....at a stop sign....he had to get out of his car.....and told me that he danced to it..... OH----how I wish I could have captured that on video.....LOL
